PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong interest in software development and digital problem-solving. Passionate about learning new technologies, building practical applications, and creating reliable solutions that support real-world needs.

PROJECTS

Smart Campus API

April 2026

Restful Backend System

Designed and developed a RESTful Smart Campus API using JAX-RS, implementing resource nesting, filtering, and robust exception handling with in-memory data management.

Clinexis -SDGP

September 2025

Healthcare Management System

Led the UI/UX design of the patient consultation workflow in Figma, improving usability and reducing navigation complexity. Developed consultation interfaces in React Native, including real-time transcription display using data from Google Speech-to-Text integration. Collaborated with backend APIs to manage data flow and ensure accurate storage in MongoDB.

Smart To-Do

February 2026

Built a full-stack task management app using React and Java Spring Boot, with features to add, complete, and delete tasks. Developed REST API endpoints and connected them to a clean React interface with structured component-based design.

EcoVolt

September 2025

Energy Management App

Designed intuitive mobile UI workflows in Figma to enhance user interaction and simplify renewable energy usage tracking.

Earth In Force

June 2025

Climate Action Website

Built a responsive multi-page website using HTML, CSS, and JavaScript with interactive UI components to improve engagement and accessibility.

Personal Task Manager Application

February 2025

Climate Action Website

Developed a GUI-based task manager with JSON-based storage, implementing search and sorting for efficient task management

MathBro

November 2024

Built a Python-based quiz application with randomized questions, difficulty levels, and performance tracking.

Bank Account Management System

June 2024

Full-Stack Web App

Developed a full-stack banking dashboard using React and Python Flask to manage customer accounts, deposits, withdrawals, updates, search, and deletion, with JSON-based data storage and input validation.

EDUCATION

BSc (Hons) Computer Science

2025 - Present

University of Westminster

Foundation Certificate in Higher Education – IT

2024

Informatics Institute of Technology (IIT)

GCE Ordinary Level

2022 (2023)

Rathnavali Balika Vidyalaya – Gampaha

CERTIFICATIONS

- Introduction to Graphic Design; Basics of UI/UX – Simplilearn | SkillUp
- Programming Foundations: Version Control with Git – LinkedIn Learning
- HTML, CSS and JavaScript: Building the Web – LinkedIn Learning
- Python for Students – LinkedIn Learning
- Python for Non-Programmers – LinkedIn Learning
- Python Data Analysis – LinkedIn Learning
- Introduction to Career Skills in Data Analytics – LinkedIn Learning
- Introduction to Business Analytics – LinkedIn Learning

Achievements

- Participant – Inter-University Startup Competition “Codesprint” | 2026
 - Second Runner-Up – Sri Lanka Schools U19 (2024) & Inter-School U17 (2022) Badminton Team Championships, Representing Rathnavali Balika Vidyalaya, Gampaha
-

LEADERSHIP & ACTIVITIES

- Event Coordinator (2024–2025) – Youth Pulse, IIT
 - Organising Committee Member – IX’25 Designathon, IEEE Student Branch of IIT
 - Organising Committee Member – ModelX AI Hackathon & Innovation Showdown, IEEE Computational Intelligence Society
 - Organising Committee Member – IndustPro Career Development Workshop, IEEE Computer Society
 - Organising Committee Member – SkillUp Program, LEO Club of IIT
 - Volunteer – Rotaract Club of IIT
-

TECHNICAL SKILLS

- Programming: Python, Java, JavaScript, TypeScript, HTML, CSS
 - Frontend Development: React, Next.js, React Native, Vite, Responsive Design
 - Backend Development: Java Spring Boot, Node.js, NestJS, REST API Development, Flask
 - Databases: MongoDB, SQL, JSON-based Storage
 - Tools: Git, GitHub, VS Code, Figma, Axure, Postman, Maven
 - Design: Wireframing, Prototyping, User Flows, UI Design, UX Research Basics
-
